Python - Tkinter Cursors

Python Tkinter supports quite a number of different mouse cursors available. The exact graphic may vary according to your operating system.

Here is the list of interesting ones −

- "arrow"
- "circle"
- "clock"
- "cross"
- "dotbox"
- "exchange"
- "fleur"
- "heart"
- "heart"
- "man"
- "mouse"
- "pirate"
- "plus"
- "shuttle"
- "sizing"
- "spider"
- "spraycan"
- "star"
- "target"
- "tcross"
- "trek"
- "watch"

Example

Try the following example by moving cursor on different buttons −

```python
from Tkinter import *
import Tkinter

top = Tkinter.Tk()

B1 = Tkinter.Button(top, text ="circle", relief=RAISED,\
                    cursor="circle")
```

```python
B2 = Tkinter.Button(top, text ="plus", relief=RAISED,\
                         cursor="plus")
B1.pack()
B2.pack()
top.mainloop()
```
